Projects

Campus Navigation System

Built a Campus Navigation System that enables users to find and navigate campus locations efficiently. Integrated mapping features and route guidance to improve campus accessibility

Line Follow Robot

Built a Line Follower Robot using infrared sensors and a microcontroller to detect and follow a line path. Programmed control algorithms to ensure stable navigation and obstacle-free movement.

Awards

Best outgoing student in science for academic year 2023- 2024

Honoured as Best Outgoing Student in Science in PUC for achieving top academic performance. Recognized for excellence, discipline, and active participation in academic activities.
